

## Media Composer -Slim Line Keyboard

The Logickeyboard for Avid Media Composer makes the creative work with Media Composer a lot simpler and faster. It is recommended for usage in post-production facilities, professional video editing houses and anyone else who requires the most used custom key commands to be readily accessible from a dedicated, clearly labeled, and color coded keyboard cover. It is also a superb way to learn the Avid Media Composer shortcut key commands.

And since the Media Composer dedicated keyboard also features all the regular letter, number, and symbol labelling that you will find on a conventional keyboard, it can simply be used as a substitute for it.
